

## Upgrade procedure

1. Power off the tablet.
2. Press and hold **Vol-** button and press and hold **Power button** until first boot picture appears, then release **both buttons**.
3. Device would boot into recovery menu after second power-on logo appears.
4. Navigate in recovery menu with **Vol-** and **Vol+**, confirm selection with **Power button**.

## How to use Recovery menu to upgrade

### IMPORTANT

All user data would be erased

Connect an adapter to tablet before upgrade

Upgrade could be applied only for FW version 2.0.01 20141031

FW version could be found in Settings/About tablet

Firmware version  
PMT3018\_WI.20141031.2.0.01

## Upgrade from internal storage

1. Copy the update zip file from /Firmware folder to the tablet memory
2. Go to Recovery mode (steps can you find above in "How go to Recovery menu")
3. In Recovery menu select "**apply update from internal storage**"
4. Select the patch package and confirm by power button.
5. Wait until upgrade was successfully finished (complete upgrade can you see at picture below), reboot tablet by select "**Reboot system now**" and confirm by power button.

```
Android system recovery <3e>
exdroid4.4.2_r2-a33-v1.0

Volume up/down to move highlight
enter button to select.

reboot system now
apply update from ADB
wipe data/factory reset
wipe cache partition
apply update from internal stora
apply update from external stora
apply update from cache
